

Mirador GC-L1 Workstation TM

with GTX-960 GPU Video Acceleration

Servers & Storage Built for the Security Industry
AGS Offers the Best Value to Performance for your Video Surveillance Systems

The AGS Mirador GC-L1 is manufactured using top-of-the-line Intel and Intel certified components.

The AGS Mirador GC-L1 is built to last and designed to operate under the most demanding conditions.

The AGS Mirador GC-L1 workstation is a stand alone tower with Intel i7 motherboard and processor that is built to work with up to 36 camera views on one monitor with GTX-960 GPU Acceleration.

AGS workstations are the most intelligent solutions for any mission critical video surveillance system.

AGS has over 35 years of computer engineering experience which goes into every system that we build.

Install an AGS server and you can have the same piece of mind as Buffalo Bills Ralph Wilson Stadium, Jacksonville airport, the University of Cincinnati (FBI) the Federal Bureau of Investigation, (MIT) the Massachusetts Institute of Technology.

All AGS products are proudly made in the U.S.A. and are designed to continuously operate under the rigorous demands of a megapixel IP video surveillance system.

All AGS systems come with a standard 4 year limited warranty with advance replacement on all Intel components.

This small but powerful business level video surveillance client is built for the latest Genetec video acceleration viewing software.

Mirador GC-L1 Workstation TM

with GTX-960 GPU Video Acceleration

Servers & Storage Built for the Security Industry
AGS Offers the Best Value to Performance for your Video Surveillance Systems

Category	Workstation
AGS Model	Mirador GC
Product ID	WSGC-L1
Base Part Number	AGS-WSGC-L1
Camera Views	36
Chassis Type	Tower
Power Supplies	500W
Dimensions	14.4"H x 6.8"W x 15.5"D
Motherboard	Intel i7 Series
Processor (socket)	Intel Core i7 (2011 v3)
Cores/HT – Speed	6C/12T – 3.3 Ghz
Memory	16GB DDR4 (32GB max)
Memory Type	non-ECC
USB Ports	10 rear - 2 front
Ethernet NIC	1x 10/100/1000
Onboard Graphics	Intel Graphics Tech.
Graphics Ports	DVI-I / DP / HDMI
Graphics Cards	GTX 960 DVI-I (1)
Audio	5.1 Channel
Serial Port	optional
Management	Intel ME
O/S Drive	120GB SSD 2.5"
RAID	0, 1
DVD/RW	Included
Monitor	Optional
Keyboard/Mouse	Included
Warranty	Four-year limited
Pre-installed O/S	Win 7 Pro x64
Viewing Client	Optional Free Installation

Part Number System;
 Part number: **AGS-WSGC-L1**

Options for this unit:
 Monitor
 OS SSD - RAID 0 or RAID 1

*Optional items must be listed on the purchase order.

 Our green policy includes RoHS and energy efficient components.

Proudly Made in the U.S.A.

* Intel® Active Management Technology (Intel® AMT) offers IT organizations tamper resistant and persistent management capabilities specifically Intel AMT as a hardware-based solution that uses out of band communication to manage access to client systems in addition to offering encrypted and persistent asset management and remote diagnostics and/or recovery capabilities for networked platforms. With Intel , AMT ,IT organizations can easily get accurate platform information, and can perform remote updating, diagnostics, debugging and repair of a system, regardless of the state of the operating system or the power state of the system.

Operating Environment: 64°F - 75°F @ 35-55% RH non-condensing. Non-Operating Environment: 55°F - 95°F @ 10-90% RH non-condensing

It is the client/end user's responsibility to provide the proper mechanical/electrical/plumbing/fire protection (MEPPFP) and IT environment that conforms to the Uptime Institute Tier 1 requirements and all applicable Federal, State, County, & Local codes & standards (UTI, EIA/TIA, BICSI, etc.). This system has been engineered to work with each component to the best usage of optimal computer power. The Computer industry's components change on a regular basis.
