Mirador ME Workstation

Servers & Storage Built for the Security Industry
AGS Offers the Best Value to Performance for your Video Surveillance Systems

The AGS Mirador ME is manufactured using top-of-the-line Intel and Intel certified components. The AGS Mirador ME is built to last and designed to operate under the most demanding conditions.

All AGS products are proudly made in the U.S.A. and are designed to continuously operate under the rigorous demands of a megapixel IP video surveillance system.

AGS has over 30 years of computer engineering experience which goes into every system that we build. All AGS systems come with a standard 4 year limited warranty with advance replacement on all Intel components.

AGS uses best-of-class storage that is designed for the continual read/write requirements of a video surveillance system.

Install an AGS server and you can have the same piece of mind as Trump Plaza Casino, Jacksonville airport, the University of Cincinnati, (FBI) the Federal Bureau of Investigation, (MIT) the Massachusetts Institute of Technology.

AGS systems are the most intelligent solutions for any mission critical video surveillance system.

The AGS Mirador ME workstation is a powerhouse with the new Intel i7 motherboard and processor that is built to work with medium (upto 48 camera views) enterprise video surveillance systems.

The AGS Mirador ME has 4 DVI ports and the memory can be expanded to 32GB.

Mirador ME Workstation

TM

Servers & Storage Built for the Security Industry
AGS Offers the Best Value to Performance for your Video Surveillance Systems

Category	Workstation
AGS Model	Mirador ME
Product ID	WSME
Base Part Number	AGS-WSME
Camera Views	48
Chassis Type	Tower
Power Supplies	850W
Dimensions	18"H x 8.1"W x 18.3"D
Motherboard	Intel i7 Series
Processor (socket)	Intel Core i7 (2011)
Cores/HT – Speed	6C/12HT – 3.4 Ghz
Memory	16GB DDR3 (32GB max)
Memory Type	non-ECC
USB Ports	8 rear - 2 front
Ethernet NIC	1x 10/100/1000
Onboard Graphics	N/A
Graphics Ports	N/A
Graphics Cards	GTX960 Two Dual DVI-I (4)
Audio	7.1 Channel
Serial Port	Optional
Management	WfM
O/S Drive	250 GB 2.5" SSD
RAID	0, 1
DVD/RW	Included
Monitor	Optional
Keyboard/Mouse	Included
Warranty	Four-year limited
Pre-installed O/S	Win 7 Pro x64 or Win 10
Viewing Client	Optional Free Installation

Part Number System;

Base part number: **AGS-WSME**

Optional items must be on the purchase order.

Options for this unit:

Memory up to 32GB

Monitor

RAID 0 or RAID 1

 Our green policy includes RoHS and energy efficient components.

Proudly Made in the U.S.A.

* Intel® Active Management Technology (Intel® AMT) offers IT organizations tamper resistant and persistent management capabilities specifically Intel AMT as a hardware-based solution that uses out of band communication to manage access to client systems in addition to offering encrypted and persistent asset management and remote diagnostics and/or recovery capabilities for networked platforms. With Intel , AMT ,IT organizations can easily get accurate platform information, and can perform remote updating, diagnostics, debugging and repair of a system, regardless of the state of the operating system or the power state of the system.

Operating Environment: 64°F - 75°F @ 35-55% RH non-condensing. Non-Operating Environment: 55°F - 95°F @ 10-90% RH non-condensing

It is the client/end user's responsibility to provide the proper mechanical/electrical/plumbing/fire protection (MEPPFP) and IT environment that conforms to the Uptime Institute Tier 1 requirements and all applicable Federal, State, County, & Local codes & standards (UTI, EIA/TIA, BICSI, etc.). This system has been engineered to work with each component to the best usage of optimal computer power. The Computer industry's components change on a regular basis.
